Dept-Grad Student Support-History

Description:
This report contains total financial support paid or attributed to graduate students through either campus payroll or financial aid over a range of academic years for a Department. Division and Campus totals are also provided for comparison. Department and Division are determined by the student's major, not by the funding source of the financial support.

This report is one of several that are used as a measure during program reviews (a.k.a. external reviews).

Report Tabs/Views:
- Dept Profile – GSS in Dept

Data Prompts:
- A range of Academic Years – Summer through Spring (YYYY-YY)
- A Department Name (can select from list)
- One or more Degree Objective (graduate level) -- *optional*

Report Limitations:
- Includes
  - Total amounts of financial support (payroll and financial aid) for graduate students registered at Third Week or End of Term of each term, including Summer
  - Counts all graduate student registered at Third Week or End of Term of Fall, Winter, and Spring terms each academic year, whether or not they received financial support
- Excludes
  - Financial support to undergraduate students
  - Payments to graduate students that are not through payroll or financial aid – such as fellowships paid directly to the student by funding agencies or travel reimbursements
  - Payments to graduate students in the form of a loan

Customizations:
- A custom variable exists for custom sorting of the support categories.

- A custom variable exists that sums the student count in each academic year and then divides the total by 3 (a.k.a. Three Quarter Average). If the report is run on a partial year, the total is still divided by 3 – resulting in a lower count than expected.

Cautions:
- Graduate Student Support data is loaded on a quarterly basis, one full quarter in arrears. The most recent term loaded is listed on the highlights section of the Data Management website http://planning.ucsc.edu/datamgmt

- Degree Objective anomalies are the result of "earning a degree along the way" or data entry errors in AIS. "NDG" means non-degree or limited.

- This report is comprised of seven queries to determine Department, Division and Campus amounts and student counts. Report writers who need to change the report should be carefully to review all queries to keep them in sync and should not to mix data from the different queries together or the totals will merge.

Graduate Student Financial Support by Department
