Graduate Student Support History based on Major Department

Description:
This report contains a list of graduate students and the history of the financial support received by support type. The department is derived from the student's major, not from the funding source of the financial support. Since graduated students can receive financial support in terms they are not enrolled (ex. Summer), the report prompts for a term in which the student was both enrolled and paid. The report then uses this information to find all payments for the student, even in terms they were not enrolled.

Report Tabs/Views:
- Support History by Student
